

The ACM Special Interest Group on Hypertext and the Web is a community of scholars, researchers, and professionals who study and use the concepts and technologies of linked information that were originally conceived as hypertext and are most famously realized on the Web. The SIGWEB community's interests range widely and include hypertext in all its forms, social networks, knowledge management, document engineering, digital libraries, and the Web as both an information tool and a social force. SIGWEB encourages innovative research, open discussion of new ideas and the development of methodologies and standards through conferences and a variety of communication resources for its members and the world.

Formerly known as SIGLINK, the Special Interest Group on Hypertext and the Web was created in 1989 to support the community participating in the annual ACM Hypertext Conference. Now in its third decade, SIGWEB has grown considerably and now sponsors five annual conferences of different sizes and covering a wide range of topics.

### SIGWEB MEMBER BENEFITS

Being a member of SIGWEB provides you many benefits and services.

- ✓ All SIGWEB members have access to ACM DL content of events sponsored by SIGWEB such as ACM Hypertext Conference (HT), ACM Symposium on Document Engineering (DocEng), ACM/IEEE Joint Conference on Digital Libraries (JCDL), and ACM Conference on Information and Knowledge Management (CIKM).
- ✓ Discounts on conferences, publications, and videos All SIGWEB members get reduced rates at SIGWEB sponsored, co-sponsored, and co-operating events; All SIGWEB members get reduced subscription rates to New Review of Hypermedia and Multimedia.
- ✓ All SIGWEB members get a free subscription to the SIGWEB members email list, with calls, advance and final event programs, and news of interest to the community posted regularly.

### SIGWEB COMMUNITY BENEFITS

The **ACM Special Interest Group on Hypertext, Hypermedia and the Web (SIGWEB)** supports the multi-disciplinary field of hypermedia and other network-based approaches to modeling knowledge, including the World Wide Web. SIGWEB conferences provide opportunities for the promotion, dissemination, and exchange of ideas concerning research and application among scientists, practitioners, and users, with an emphasis on the development of methodologies and standards and the promotion of consensus within the field.

The **Association for Computing Machinery (ACM)** is an educational and scientific computing society which works to advance computing as a science and a profession. Benefits include subscriptions to *Communications of the ACM*, *MemberNet*, *TechNews* and *CareerNews*, plus full access to the *Guide to Computing Literature*, full and unlimited access to thousands of online courses and books, discounts on conferences and the option to subscribe to the ACM Digital Library.
